

## **GITAM UNIVERSITY**

GITAM University, named after Gandhiji, established u/s 3 of the UGC Act, 1956 has made a mark of its own in teaching and research of global standards. The university is located in three picturesque campuses at Bengaluru, Hyderabad and Visakhapatnam . With a multidisciplinary approach, the university offers 128 programs at UG, PG and Doctoral levels in diverse disciplines in Technology, Architecture, Pharmacy, Science, Medicine, Nursing, Management, International Business, Gandhian Studies, Law and Humanities. The university has turned into one of the biggest universities in India with 1250 committed faculty members, 1100 research scholars, over 18,000 regular students and more than 45,000 distance learners.

Recognizing the holistic education the university is imparting, the Ministry of Human Resource Development(MHRD), Govt. of India ranked GITAM as category 'I' University among the universities of its kind. The university is accredited by the National Assessment and Accreditation Council (NAAC) with 'A' Grade. GITAM is one of the chosen universities that has been accorded 12 (B) status by the University Grants Commission (UGC) facilitating high impact research. All these accreditations stand as testimony for the best quality education being imparted by the university.

The university has state-of-the-art infrastructure and well-equipped laboratories together with excellent student support facilities such as modern library, playgrounds, hostels and 2.2 Gbps (2200 Mbps) internet bandwidth connectivity with Wi-Fi access. GITAM campuses at Bengaluru, Hyderabad and Visakhapatnam provide a congenial environment for studies and offer first-class academic and recreation facilities. The cosmopolitan mix of students hailing from different parts of the country creates a welcome and friendly atmosphere in all the three campuses.

The university provides a dynamic and exciting experience to students in a diverse learning environment. The learner-centered teaching methodology with the curriculum designed by academic experts prepare GITAM graduates to successfully meet academic and corporate challenges and build bright careers in life. The degrees awarded by the university are respected and valued across the World.

The curriculum design of all the programs is aligned with the vision, mission, objectives and quality policy of the university. The curriculum is developed, keeping in view, the local, regional, national and global developmental needs in order to meet the ever changing demands of the industry, economy and society. The Choice Based Credit System (CBCS) is introduced based on UGC guidelines to enable students to have flexibility in learning, with wider choices outside their disciplines of study. The CBCS facilitates students to acquire the desirable skills to enhance their employability, and the grading system facilitates seamless mobility of students across institutions.

The stellar research laboratories in all the three campuses provide excellent opportunities to the faculty and students for conducting innovative research in diverse disciplines. The academia and industry look up to GITAM University for solutions to problems of the industry and society in several areas of contemporary relevance.

GITAM University instituted good number of scholarships and fellowships for meritorious UG and PG students. In addition to the above, scholarships are given from the endowments instituted out of donations of philanthropists. The earn-while-you-learn program of the university inculcates dignity of labour among the student community apart from providing them an opportunity to earn while they learn.

A wide range of clubs and forums in GITAM encourage the students to gain experience and exposure to develop their personality. The university encourages students to take up independent research by utilizing their latent talents. GITAM University Science & Activity Centre (GUSAC) provides an exclusive platform to the students to nourish their creativity and unleash their genius and inherent talents. It organizes several technical festivals to stimulate scientific temperament among students besides creating a platform for inculcating interest in research.

The students of GITAM won recognition for their research contributions at national and international levels. Students of mechanical engineering department designed amazing products such as self balance bike, solar metro rail and vintage car using Autodesk Fusion software. A team of students from aerospace engineering, Hyderabad campus, represented the university and won appreciation at National Institute of

Technology, Kisarazu, Japan for their prototype in aero dynamics. Good number of students developed new designs and registered their innovations for patents.

GITAM equips its students with sound basic skills to give them a competitive edge to compete in the global market. The academic experience and the cutting edge skills acquired in the chosen discipline often enable them to face the demands of a tough economic environment. Students also improve their professional skills and gain hands-on experience through a wide range of internship programs in multinational corporations across the country.

GITAM is the first choice of the students from almost all the States in the country for pursuing quality education in engineering, architecture and pharmacy. An exclusive Directorate of Training and Placements facilitates career guidance and placement services to enable them to find quality employment in renowned multinational corporations. The students graduated from the university are preferred by many top-notch companies of IT and core sectors.

It is a matter of great pride that the alumni of the university occupy prominent positions in prestigious organizations all over the world and some of them have become successful entrepreneurs. The alumni spread across the world guide the students pursuing higher studies and placements. The GITAM alumni associations in USA, Australia and Canada are involved in social service activities.
